The above rules, established Dr. J. C. There is nothing of so great portance to the sick as to ow where to find a physian whose skill and humanity ve assurance of proper and licate treatment. The Docr would respectfully call the tention of those of both sexes o are suffering or in trouble the invariable success that s marked the career of the stitute in the seventeen years its existence.

It is unnecessary in this conction to enumerate all the mplaints treated at the Intute, but the Doctor feels it duty to call especial attenn to that terrible scourge, SEMINAL WEAKNESS, That is sapping with its iniousness the very life of its tims; in the treatment and re of which the Institute has rned so enviable a reputan.

READ THE FOLLOWING:

PORTLAND, OREGON, July 14, 1868
P. D. MOORE, Esq.—SIR:—

The undersigned having witnessed the exhibition in this city yesterday of your "Extinguisher" or Portable Self Acting Fire Engine, would state that the first experiment of a fire kindled outside of the building erected in the rear of the Central Public School House, made by using shavings, staves, tar, &c., was effectually extinguished with one machine in a short time; that the second experiment of a fire in the inside of the building, made by using shavings, kerosene, staves and dry stuff, was also promptly extinguished by the use of one machine in less than three minutes. The third experiment was left to the control of the Fire Department, under the direction of the Chief Engineer, and the building was fired inside and outside, and when the fire was well under way the Chief Engineer gave the order to extinguish, and the fire was effectually put out in [illegible] minutes. A brisk breeze was blowing at the time, and we pronounce the experiment successful and satisfactory. We are satisfied that the EXTINGUISHER is very valuable for what it claims, namely the prompt extinguishment of fires in their earlier stages, and being self acting and always ready at a moment's notice would, if generally introduced, save much valuable property from destruction, and we regard it as a valuable auxiliary to the Fire Department. They are [illegible] in localities where no steam or other fire engine is in use, and we recommend their use generally in dwellings, stores, hotels and public buildings.

Very respectfully,

Chief Engineer Portland Fire Department.

ON BOARD THE ALASKA, Portland, July 12, 1868.
P. D. MOORE, Esq.—Sir: I have just returned from witnessing the operations of your Extinguisher, or Portable Self Acting Fire Engine, and often I was both surprised and highly pleased with its success.

I have no doubt whatever of its efficiency and adaptation for putting out fires in their earlier stages, in water [illegible] combustible [illegible] that are burning. Its action on a flame is really magical. They should be in every house of any value, or which contains valuable property, as well as on board of vessels. No one can estimate the additional security they give to both life and property. You will please furnish me two of the No. 2 size immediately for the Alaska, as I sail for Honolulu tomorrow morning. Very respectfully,
R. CALHOUN,
Master of schooner Alaska.

DATES TO JULY 22.

Washington Items.

WASHINGTON, July 20.—Emanuel Leutzer, the celebrated painter, died yesterday of apoplexy superinduced by heat.

The President to day sent to the Senate the following nominations: Geo. H. Dawson, of Pennsylvania, Minister to Russia; Wm. S. Rosecrans, Minister to Spain; John M. McClernand, of Illinois, Minister to Mexico; H. M. Watt, of Pennsylvania, Minister to Austria; Wm. [illegible] Wells, Assistant Secretary of the Treasury; C. C. Cox, of Maryland, Commissioner of Pensions; Elisha Foote, of New York, Commissioner of Patents; E. D. Cooper, Temporary Collector of Internal Revenue.

The President has sent a veto of the Electoral College bill, which was passed over the veto in both houses by a strict party vote. The veto reiterates hitherto expressed objections to reconstruction acts. Some fears are expressed lest the President should veto the tax bill.

CHICAGO, July 21.—The *Times* special says the Senate, in executive session yesterday, considered the Sandwich Island treaty and did not reach a vote. Mr. Sumner made a powerful speech in support of the treaty, arguing the benefit the Pacific States would derive.

Mr. Fessenden opposed the ratification on the ground that sugar, rice, &c., would be imported free of duty, and would reduce the revenue and injure the productions of the Southern states without commensurate return.

Secretary Seward has issued a formal announcement that the resolutions of the Legislature of Ohio and New Jersey must remain in full force and effect, and that the 14th amendment has been duly ratified and has become part of the Constitution.

The President yesterday nominated Robert Mullin, Register of Lands at Belmont, Nevada; [illegible] G. Riddle, Receiver of Public Moneys at Belmont, Nevada; O. H. Burnham, Assessor of Internal Revenue, 2d District of California; and Charles N. Fenton, Treasurer of the Branch Mint at San Francisco.

Congressional.

The bill relating to the rights of American citizens abroad was taken up. The question was on striking out of the clause authorizing the President to make reprisals by suspending commercial relations. A debate at some length ensued, when the bill was laid aside without action. The President's veto message was received during the debate. The bill was passed over the veto 35 to 8.

The President's message transmitting the ratification resolutions of Louisiana and South Carolina was received and referred to the Judiciary Committee. Also a message enclosing correspondence of the Department of State and Mr. Van Valkenburg, Minister to Japan, relative to the suppression of the Coolie trade. Several other Executive communications were received and referred.

The Senate held an executive session and then took a recess.

WASHINGTON, July 22.—In the Senate, at the evening session, a joint resolution was passed authorizing the payment in full of the subsidy of $500,000 to the Pacific Mail Co. for the Chinese and Japanese service. The joint resolutions of sympathy with the Cretans were passed.

The balance of the session was consumed in consideration of the bill authorizing bridges. That over the Ohio was considerably modified and then passed.

At the evening session the Conference Committee on the appropriation bill and the deficiency appropriation bill made a report, both of which were agreed to.

The House then proceeded to consider the funding bill. Boutwell's substitute was rejected by 72 to 66. The bill finally passed.

The first section fixes the lowest denomination of bonds at fifty dollars. The second provides that there shall be only one class of bonds running for fifty years, bearing 3 65-100 per cent. interest. The third provides that income from bonds shall never be liable to taxation. The section legalizing gold contracts was stricken out. These bonds are required to be made by advertising for proposals.

The President to day nominated Warren T. Lockhart as Register of the Land Office at Carson City, Nevada, and Stephen F. Chadwick as Receiver at Roseburg.

WASHINGTON, July 21.—In the Senate, the joint committee was discharged from further consideration of the subject of international copyright.

Debate on Army Reduction.

WASHINGTON, July 21.—Senate sat until after midnight last night, discussing Wilson's substitute for the House bill reducing the army to the ordinary peace establishment. The principal discussion was on the clause of the bill providing for the issue of arms to State authorities in Southern States. Mr. Vickers moved an amendment that the arms shall not be distributed until January 1st, nor until the President shall deem it necessary for the prevention of disturbances in Southern States. Rejected.

Several other amendments were rejected and the bill passed by a strict party vote.

Indian Troubles in the Southwest.

NEW YORK, July 20.—Reports from Ft. Larned, Arkansas River, say 12,000 or 15,000 Indians are congregated there to receive their annuities. Col. Wynkoop withheld the arms and ammunition on account of the recent depredations of the Cheyennes. The Indians became enraged and declared they would fight and were ready for war again. The meeting broke up in great confusion. The same evening the Kiowas attacked a train and robbed it of supplies of provisions. General Tilley arrived at Ft. Harney with 6,000 cavalry and told the Indians he preferred peace but was ready for war. This quieted them somewhat, but they are still sullen and discontented. Wynkoop deprecates the course pursued by the Government. He says the Indians of this vicinity are peaceably inclined, but hostilities are likely to break out at any time.

Strange Bank Robbery.

The recent robbery of the Importers' and Traders' Bank is a very mysterious affair. The money was secured in a burglar proof safe with a combination lock requiring five persons to open it, each knowing only parts of the secret operations to open it. Over $50,000 in gold was taken. The lock was apparently not tampered with.

Montevideo letters of June 15th say the banks have been directed by decree of Gen. Flores, Dictator, to pay up their notes in gold on the 15th of June. A great run was consequently made. The Brazilian house of Maury & Co. closed their doors and refused to pay. It is thought that Brazil will assist them to enforce their claim against Flores.

The report of the conference committee on the bill to supply temporary vacancies in the Executive Department was adopted.

Express Robbers Arrested.

CHICAGO, July 21.—Three men were arrested for the attempted Express robbery near Seymour, Indiana, by running off with the engine and a portion of the train. They were being conveyed from Cincinnati to Brownsville, Indiana, last night under a strong guard to be placed in jail. When the train reached a place two miles from Seymour it was stopped by a mob of twenty men who overpowered the guard, seized the three persons and hung them. This vicinity has long been infested by a desperate gang of robbers and murderers, and the citizens are determined to exterminate them.

A freight train was thrown from the track by displacement of a switch, and badly damaged the engineers and two stock cars. A good deal of apprehension is felt by the traveling community.

Schultz, from Virginia, was drowned between four and five o'clock this morning, in Walker river, at Elbow [illegible], 16 miles from this place, while attempting to cross the river at that point, under the following circumstances: One of Elbow's boys' cows got mired in the quicksand, and Schultz and Joe started to her relief. In crossing their horses got stuck in the quicksand, and it is supposed Schultz got off to extricate his horse, but in the attempt he let his horse go and the swift current carried him under and down stream. The Days of Toleration.

Democratic papers are fond of boasting of the magnanimity and toleration exhibited years ago when their party was in power. The Sacramento *Record* reviews some recollections of these times,—heading its article, "Rotten Eggs and Sour Flour":

These were the convincing arguments used by the Democracy in 1856, during the [illegible] memorable campaign. Our speakers were hissed at almost every sentence, and to show their love for free speech, which they declared they [illegible] as much in favor of during the war, when some of them were sent to Alcatraz for not the use but the abuse of free speech. They now do not wish to hear anything concerning their former history or doings. What a prodigious howl, like unto that of the fiends of the lower region, would they now set up if we would rotten egg or sour flour their speakers, when they speak against the [illegible] Government they tried to destroy. If one of their speakers were hissed, a terrible ado would be made from Los Angeles to Siskiyou, and the perpetrators would be denounced as the vilest of the vile, notwithstanding their party organs justified it at that time. The Black Republican party were not rebelling against the constitutional authorities, but simply wished to quietly and peaceably discuss the question of the extension or the non extension of slavery into the Territories then free. This appeared to be Democracy's heinous crime. They had the reins of our Government in their hands and everything was under their control. Jim Hardy offered a resolution at a public meeting in front of the Orleans Hotel in this city, which was unanimously passed, declaring that no person should be allowed to proclaim such treasonable sentiments publicly as the Republican party then advocated. The cheers of the blacklegs, thieves and rowdies were perfectly deafening on that memorable occasion. This class were always the firm supporters of the Democratic party. The old Whig party was entirely clear of them in the Northern States. We [illegible] speak as to the South, as no patriots in [illegible] could travel there who was in favor of free speech. These self same parties who in 1856 were engaged in throwing rotten eggs, are now most blatant for the great privilege of free speech, and all of them have either directly or indirectly aided in the late rebellion. Every one to-day is supporting Seymour and Blair, and should any one at their public meetings dare to hiss or do any of the many other blackguard acts of which they were guilty, and of which they [illegible] boasted at the time, he no doubt would meet with severe punishment. We do not mention these things with the idea of having any Union Republican pay them back in their own coin, for we are in favor of the free discussion of all matters, unless [illegible] language is used, then all speakers are liable to meet with disapprobation and subject themselves to marks of displeasure, which [illegible] exhibited should be done in a civil way. At the time spoken of none but most respectful language was ever used. Good sound arguments were introduced by the speakers, and nothing was heard at all calculated to stir up the [illegible]. It was only the extension of slavery [illegible] freedom which was discussed.

Mr. [illegible] says [illegible] have more [illegible] pedias, pamphlets, magazines, &c., than any other people. Their principal encyclopedia embraces five thousand volumes. Have they a Congressional Printing bureau?

The Final Triumph

The ratification of the fourteenth amendment to the Constitution of the United States has been officially proclaimed. It [illegible] is now a part of the fundamental law of the nation, and its adoption signalizes the success of all that the Republican party has been contending for since the overthrow of armed rebellion.

Thus, reconstruction upon the plan laid down by Congress and approved by the tremendous majorities of 1866, is established in the Constitution itself. It is therefore ratified and secured that it cannot be overturned. Opposition to it now becomes opposition to the Constitution. And the declaration of the Democratic platform that reconstruction is null and void means that that party, if it obtains power, intends to override the Constitution. It can never get two thirds of Congress to propose to the States an amendment rescinding this amendment; still less will it get three-fourths of the States to revoke this fourteenth article. In continuing its opposition to the accomplished fact of reconstruction the Democratic party therefore contemplates an open violation of the Constitution. It means to exhibit to the *country the* spectacle of another Democratic rebellion. For this issue every loyal man is ready. The history of the past eight years will serve to foreshow the fate of future rebellion.

It is extremely fortunate that affairs have come into such a shape that it is no longer possible to mistake the issues of the Presidential election. On the one side is the Republican party, supported by law, by the Constitution, and by the friends of public order; on the other is the Democratic party with avowed revolutionary designs, seeking to reverse accomplished results, and by reactionary propositions constantly menacing the public peace. The simple question is: Are we to have a Republican triumph with peace to the country or a Democratic triumph followed by violent agitation in an attempt to undo what the war has accomplished?

The revolutionists of this State have been flattering themselves that they would have a *chance this fall to withdraw the assent of* Oregon to the fourteenth amendment, and thus aid in securing its defeat. They are now spared this trouble. They may, and doubtless will, fulminate a little in a harmless way, and it may be they will talk something about the gross unconstitutionality of amending the Constitution in a way they don't like. While they are denouncing the fourteenth amendment they may just as well rail against the one next preceding it, by which slavery was abolished. But Republicans can look on with great complacency while their opponents are giving vent to their spleen and disappointment at the success of the amendment which we have been laboring to secure. Messrs. Democrats, reconstruction is a successful and the fourteenth amendment is adopted: what are you going to do about it?

Oregon Commerce

The question of direct trade with the world at large *is one that imperatively demands the* careful consideration of the people of Oregon. This system of trade would increase the wealth of the State and add immensely to the trade of Portland. It would hasten the development of the agricultural, manufacturing and mineral interests of the State. It would be the means of encouraging immigration. It would increase the wealth of the State by giving the farmer at least thirty cents a bushel more for his wheat than he now receives, inasmuch as it would cut off the heavy expense attendant upon shipment to San Francisco. This advance received by the farmer would be so much added to the wealth of the State, as it would all go into substantial improvements. In proportion as the cultivation of the soil becomes remunerative, in that same degree will the value of the soil and the wealth of the State be enhanced. Such a system of trade would add largely to the business of this city by promoting the erection of wharves and store houses for the accommodation of shipping. It would stimulate old branches of industry and lead to the opening of new ones. It would hasten the development of the agricultural portions of the State by giving a standard value to every acre of land that will produce grain,—*that standard being determined* by the excess of the value of the products over the cost of production. It would aid in the development of our mineral resources by enabling the operator to lay down heavy machinery on our wharves at low figures. Its effects upon manufacturing would be felt in the increased facilities afforded for placing our wares in the markets of the world. It would promote immigration by spreading a knowledge of our resources and capabilities. Every bag of Oregon wheat or bale of Oregon wool would be an advertisement for our State. The moment the farmer finds it to his profit to pay men to plough up the soil and raise wheat he will call for laborers. That call will go out to all the world, and from every point of the compass will come the response from able, active and willing men who are seeking a profitable field for labor.

The Fourteenth Amendment

The following is a summary of the provisions of the fourteenth amendment to the Constitution, which has been adopted and declared a part of that instrument: 1. All persons born in the United States and subject to the jurisdiction of that Government are citizens thereof. 2. All persons naturalized in the United States are citizens thereof. 3. No *State shall make or enforce any law abridging* the privileges or immunities of citizens of the United States. 4. No State shall deprive any person of life, liberty or property without due process of law. 5. No State shall deny to any person within its jurisdiction the equal protection of its laws. 6. The States severally may regulate the exercise of the elective franchise within their borders. 7. If any State disfranchises any [illegible] the representation of such State shall be reduced proportionally to the number disfranchised. 8. Leading traitors shall not vote or hold office under the United States, but a two-thirds vote of Congress may remove either of these disabilities. 9. The United States debt shall never be repudiated. 10. The rebel debt shall never be paid. Can any one point out a single objectionable provision in this article?

Stop That!

In [illegible] this morning the St. Louis *Democrat* has an article on Government subsidies to railroads which we reprint as an indication of the feeling throughout the country on the question of granting further subsidies:

The Senate has under consideration the application of the Union Pacific Railroad, Eastern Division, for an additional grant. The company asks for sixteen thousand dollars a mile bonds for [illegible] two hundred and fifty miles [illegible] the present terminus, but instead of extending the road to Denver it wants permission to turn off to the southward toward Albuquerque. The little fragmentary grant now asked for, therefore, really means an enormous one; in the event of the first [illegible] and when the two hundred and fifty miles have been built Government will be called on to grant another in the subsidy, and then another until the road is to be pushed to the Pacific. In fact the company wants a grant for a thousand miles, though it asks for only two hundred and fifty. Turning off without going to Denver, the road will run off into a wild and useless region, and its two hundred and fifty miles will take it nowhere. At the next session of Congress members will be told that this grant was absurd unless they meant to give another subsidy to take the road to somewhere. And then we shall be told that both these grants are absurd, and the road itself will be a waste, unless Government will build it through to the Pacific.

Now we object, in the first place, to this method of trapping the Government into a job the cost of which its advocates do not dare to avow openly. *If there are good and honest reasons for* the proposed change of route, why does the company not ask frankly from Congress a subsidy for the whole route instead of hiding its change of direction under a little bill for only two hundred and fifty miles? The people are not to be cheated. If a grant for the whole route now proposed would be unpopular, and if Congress would not dare to vote it, then it is little less than a fraud to vote a grant for only a fraction of the route which will be simply a trap for [illegible] unless followed by other and vastly larger grants.

But we object, in the next place, because the company is not keeping faith with the Government. It first obtained a subsidy to enable it to form connection with the Union Pacific. Then having failed in that, it obtained another grant and change of route, with the express condition that the road, if built by the Government to Pond *Creek, should be completed to Denver by the* company. Now, the Government having built it to Pond Creek, the company want to get rid of the obligation to go to Denver, and ask leave to change the route a second time.

A road to Denver would be of great practical benefit. It would make the entire road from Denver to Kansas City a very profitable one, and would build up Colorado with great rapidity. But perhaps the company does not want the road to become highly profitable too soon. They fancy, perhaps, that they can make money in the long run by building somewhere else at Government expense, and with grants of land, and *after* [illegible] enjoying all the benefits of a road to Denver to be built by the impatient people of Colorado. It seems to us that the company, having agreed to go to Denver, ought to be held to a performance of their agreement. When they have kept faith with the Government and the people it will be time enough to talk about another grant. With singular coolness the company claim the aid now asked on the ground that they have working parties organized and everything ready to extend the route, and it would involve great loss to suspend operations. Let the working parties be employed at once, then, in keeping the bargain with Government by building the road to Denver. When that has been done, the Government may hear *the argument against disbanding the forces.*

But these are objections as to detail. Once for all, in the name of the tax payers *we object to any grant whatever from a bankrupt treasury in aid of any railroad,* until the financial question can be considered and the people can be relieved of some part of their burden. We make the objection in this very case with the more freedom because this is called "a St Louis road." Neither for this nor any other such enterprise ought one dollar to be voted from the treasury, while the country is in its present condition. Industry is borne down by the burdens of taxation, business has not yet recovered from the effect of war, our bonds are far below par, our currency remains depreciated, and *it is no time to talk of increasing the debt.* Taxes are heavy enough already, at least for the present. We know that in this protest we speak for millions of tax payers in every part of the land. In their behalf we call upon Congress to vote *not one other dollar* in railroad subsidies at this session. Let the Union Pacific keep its agreement and build to Denver, and in the meantime the condition of the country may change for the better. At any rate, this is no time to talk of a grant for a second road to the Pacific, nor is it a time to add to the volume of a debt already too burdensome.

Seymour's Deceptive Statements

In his Cooper Institute speech on the 2d ult., Seymour made a declaration that $900 000,000 had been expended under Republican appropriations, in support of the army and navy since the close of the war; thereupon he drew a frightful picture of Republican extravagances. This statement is deceptive and dishonest, and known to be such when made. The facts, as given by an Eastern paper are these: Immediately after Lee's surrender, 1 000 000 soldiers and 50 000 sailors had to be mustered out, and money had to be provided at once for their back pay, their bounties and their prize money, and for these objects $625,000 000 were expended as soon as the accounts could be settled after the final victory of Grant *and all within a period of 150 days. Do Sey*mour and his friends object to the payment of the honorable debt of the republic to the men who risked their lives to save the life of the nation. Thus it appears that, according to Seymour's own figures, only $175 000,000 has been expended in three years for the current and legitimate expenses of both army and navy, or $58 000 000 per annum for both branches of the service, a less sum per regiment for the army than was expended for the same service in Buchanan's administration, and Buchanan's expenditures were in gold while the present disbursements are in paper. The army has never been so economically administered as under General Grant. Andrew Johnson testified in his last annual message that General Grant, while acting as Secretary of War had cut down army expenses millions of dollars per month.

The project is revived in England of tunneling the channel to France. Evidence has been obtained that the soil over which the sea flows is white chalk, grey chalk and green sand below. This fact was ascertained by borings on the English and French coasts, the two points on each side of the channel being not more than twenty miles from each other. It is but reasonable to suppose that the same material will form the submarine soil from coast to coast. The chalk can be easily worked, and the expense is placed at $50 000,000 gold—twice the cost of the Abyssinian war.

We have received from Bancroft & Co., of San Francisco, the report of J. Ross Browne on the Mineral Resources of the States and Territories west of the Rocky Mountains. It is a book of [illegible] pages and which contains a vast amount of valuable matter relative to the Pacific coast.

A New York dispatch of July 2d says: Miles O'Reilly (Halpine) has created quite a stir among the peace Democrats, and in fact among all, by declaring that in case an anti war Democrat is nominated he will withdraw with the large number who think as he does.

The Chicago *Times*, following the lead of the New York *World, acknowledges the restoration* of the Southern States to the Union with constitutions formed in conformity with the requirements of the Reconstruction laws, as an accomplished fact, beyond the power of reversal.

A bill relieving several hundred Southerners from political disabilities has passed both houses of Congress. This is another proof of the terrible malignancy of the Radicals. Such vindictiveness was surely never before shown in the world!

"These suspenders," said an auctioneer, "are elastic—long enough for any man, short enough for any boy, and warranted to fit." No Democrat should hesitate to support Blair on the score of principle.

Doolittle says the negro cannot be the equal of the white man. In short, that the negro is a fool. The Chicago *Post* says Doolittle should not get up a controversy with a fool. A man divided against himself shall surely fall.

The Wheat Crop

Dispatches from Washington of July [illegible] state that the following is [illegible] of the [illegible] of the Agricultural Department [illegible] the winter wheat [illegible]:

An increase of acreage is observed in a greater or less degree in nearly every State. The Eastern States show an increase of fall sowing except [illegible] per cent. in Vermont, but the only [illegible] area [illegible] spring crops, which are the main [illegible] for [illegible] supplies, very marked in Maine and Vermont, the former showing an advance of [illegible]. A very light increment [illegible] is shown in New Hampshire and Massachusetts. New York falls [illegible] per cent. in acreage in fall [illegible] with no change in spring wheat. New Jersey shows an increase of [illegible] per cent. of winter wheat. In Pennsylvania the acreage is very slightly enlarged, [illegible] per cent. for winter wheat. In Delaware a [illegible] of [illegible] per cent. appears, while an increase of 9 per cent. is shown in Maryland, 11 per cent. in Virginia, 17 per cent. in North Carolina, 21 per cent. in South Carolina, 11 per cent. in Georgia, 30 per cent. in Alabama, [illegible] per cent. in Mississippi, [illegible] per cent. in Arkansas, 10 per cent. in Tennessee, 20 per cent. in West Virginia. In Texas a decrease is shown of 6 per cent. and in Kentucky of [illegible] per cent. Spring wheat is now grown in the South. The increased acreage in the West, where the great bulk of the wheat crop of the country is grown, is of peculiar significance. Of the States in which winter wheat is more largely cultivated, Ohio presents an increase of [illegible] per cent. of that variety, Indiana 10 per cent., and Michigan [illegible] per cent. In portions of these States an unusual effort has been made to enlarge the yearly spring sowing, showing respectively [illegible] per cent. increase in States which rely mainly on spring sowing or [illegible]. Illinois indicates an increase in that variety of [illegible] per cent., Wisconsin [illegible] per cent., Minnesota [illegible] per cent., Iowa [illegible] per cent. An increase has been made also in winter wheat in [illegible] States with the exception of Wisconsin and [illegible], though in Minnesota the total product of fall sown wheat is too trifling to be much affected by it. The increase of winter wheat in Illinois is placed at [illegible] per cent., in Missouri at 9 per cent., in Kansas [illegible] per cent. An analysis of these averages will show a general average of about 11 per cent. increase in fall sowing and [illegible] per cent. in the breadth of spring wheat. Altogether an increase of [illegible] per cent. in the aggregate number of acres in wheat. Reports of condition for June are generally favorable. The promise of the best crop ever known is held out by local correspondents in many places, particularly west of the Mississippi. Some complaint of failing [illegible] is made, but the extent of this damage, which has been more severe during the latter part of the month, is not determined. Many of the most serious complaints of winter killing in Kentucky and Tennessee have been greatly modified by subsequent growth and tilling of plants presumed to be dead.

STATE ITEMS

The harvest is now in progress in the Southern part of the State.

[illegible] has a fire company which [illegible] provided itself with a bell.

Capt. McCall informs the Jacksonville *Sentinel* that Indian Superintendent Applegate is going to open a road from Dead Indian Prairie to Cold Springs on Klamath Lake. There he will have a boat on the lake a distance of twenty miles to the Agency. It is only 15 miles from Ashland to Cold Springs, via Dead Indian.

The Roseburg *Ensign* proposes in view of the fact that Joseph Smith will be powerless to do anything for Oregon during his term in Congress that he devote so much of his valuable time as is not taken up in attending old [illegible] tea parties, to preparing a *white* man's psalm book for the use of Democratic Northern Methodists who voted for him.

A Dalles dispatch dated yesterday (22d) says: Last evening, Alfred Wilson, a remarkably fine *boy of eleven years, and only son of Judge Wilson*, was drowned, while bathing in the dam on Mill Creek. His companions were all small boys who becoming terrified did not give the alarm for some time. The instant it became known, large numbers hastened to the spot and a dozen men by swimming and diving searched the dam. The body was recovered at midnight, when it was found by Dr. Brooks, resting on the bottom, in a *very deep part of the dam.* So much time had elapsed that resuscitation was impossible. He was a universal favorite, and the entire community sympathize with the sorrow stricken parents in their bereavement.

Greenbacks or Gold

The "Democracy" can't agree about the meaning of their own platform. Thus the *Examiner*, the leading Democrat paper of California denies that the platform demands the payment of the five twenties in greenbacks and says:

What it demands is that the debt be paid "as rapidly as practicable;" that "all money drawn from the people by taxation, outside of the economical demands of the Government, should be honestly applied to such payment, and when the obligations do not expressly state upon their face or the law under which they were issued does not provide, that they shall be paid in coin they ought, in right and justice, to be paid in lawful money of the United States." Thus, it will be seen, that there is not one word about the payment of the five twenty bonds or any distinction made between them and the others.

FOR BETTER OR FOR WORSE.—Mr. Seymour the strategist, when perceiving that the nomination was to fall upon him (as he intended it should from the organization of the Convention) must have felt like some made up old lady, with false hair, teeth and hips, and who, in accepting an offer of marriage conscientiously replied: "You take me for better or for worse." Seymour was sensible of his odious record—his false Unionism—when he said he could not be nominated without putting himself and the Democratic party in peril." The old fox was sensible of his foul record during the war, and he felt like giving the party due notice of what it was doing. Mind you, there was none of this talk till after his nomination was certain. Then he began to feel like the old woman who knew if she married she must expose her defects. So Seymour cried out: "Hold on, if you take me you open my old sores, and imperil the party." But if you press the nuptials you take me for better or for worse. The party is already sensible of a bad contract.—*Marysville (Cal.) Appeal.*

Two or more years ago, one Smith Eastman of New York, operated in pork, flour, beef, etc., running the price up to an outrageous figure. He made a great deal of money and poor folks suffered consequently. Last month he died in the Hartford Lunatic Asylum.

Massachusetts and Rhode Island are still quarreling over boundary islands. It is proposed to renew negotiations with a view to an agreement on the charter line.

Seymour vetoed the bill passed by the New York Legislature authorizing soldiers to vote. What man who served in the army can vote for him?

WHILE SECRETARY SEWARD IS continuing to purchase additional territory, the citizens of Oregon should thereby be reminded to continue purchasing their goods at the lowest rates possible of KOHN & FISHEL. Their stock of Clothing they intend selling regardless of cost to make room for their immense fall stock, about to arrive, and their stock of dry goods they are selling at cost to give the ladies an opportunity to buy at extremely low prices.

THESE WHEELS, UNEQUALED AND UNRIVALED in the United States or the world, have been fully tested, with [illegible] now being in use at this [illegible] Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c. &c.

CAUTION

To all whom it may concern: I hereby give notice that the so called [illegible] Pacific Turbine Water Wheel is a direct infringement and copy of the James Leffel's American Double Turbine Water Wheel, and [illegible] hereby prohibited. Any person [illegible] making, using, constructing or vending said Water Wheels make themselves liable to heavy damages and penalties. Parties interested I will take notice [illegible] said infringements to the utmost extent of the law.

That all may know what I say and am not playing "*bluff*," I give the following extract from a legal opinion on this subject from one of the most eminent Patent Attorneys in the United States:

WASHINGTON, D. C., April 17, 1868.

MR. A. MYERS: In accordance with your request we have examined the patents of Shipley on Water Wheels [illegible] that they both infringe the Leffel patents. [illegible] Shipley's Wheels he uses the [illegible] buckets precisely as Leffel does, and in this he clearly infringes. The fact that Shipley has applied another series of buckets in addition to those used by Leffel does not relieve him from the consequences [illegible] at all. He has no right to use [illegible] buckets whether or not with a third [illegible] any other number of tiers added. It is a clear infringement. Respectfully yours,

DODGE & MUNN.

I hereby give notice that I will prosecute every infringement of our Patents whether it is the maker, user, buyer or seller. Every infringement, whether our claims are used in whole or in part, will be prosecuted.

A. MYERS.

PERSONAL.—The family of Rev Dr Benson left for their new home or rather their old home, at Santa Clara, California by the *John L. Stephens* last evening. Dr Benson will remain here till after the M. E. Conference in August.

Mr Wm P Burns and family, of Oregon City started for a visit to Illinois and the Western States. Mr Burns has been away from the States for sixteen years. He will return in about six months, though his family contemplate a stay of eighteen months.

Rev Dr Atkinson left for an absence of several months in the States, the trip being undertaken for the purposes of rest and the recovery of his shattered health.

Dr E Wood, late local reporter of the *Herald*, took his departure for San Francisco, intending to go thence in a short time to the States.

Ned Kelly of Oregon City and Mr Ryan went also to San Francisco where Ned intends fitting up for resuming the glass blowing business. He will return here in time to be at the State fair.

Mr Thos H Crawford of the Portland Academy went on a visit of observation intending to spend two or three weeks in visiting the schools and colleges of San Francisco, with a view to learning the special advantages of their various systems of educating.

These all went by the steamer last evening. We wish them each a prosperous journey and a safe return to all who contemplate coming back.

Mr J R Moores, President of the Oregon Central Railroad, East side came down yesterday on business connected with the road. He will visit the East side to day.

Mr J C Cartwright came up from Clatsop Beach by the *Teaser* Tuesday evening. He reports that Gov. Woods and party will remain a week or ten days longer.

PROF. MORELAND'S READINGS.—The audience at Oro Fino Hall last evening was rather small as to numbers but we think it was an appreciative one. Mr. Moreland is a young man but he has rhetorical powers far in order far above the average of men who have not made rhetoric and elocution a specialty through long courses of training. We have heard the Raven rendered better than by Mr Moreland, but in many passages he displayed a good deal of power and excellent perception and rendering of the authors meaning. We liked one thing about it; he did not croak from beginning to end of the poem, he croaked only for the raven. His reading of Paul Revere's Ride was very good, and the Wonderful One-Horse Shay was fair. On the whole we are disposed to like the young Professor.

During an interval in the readings Prof. Emery stated to the audience the nature of the visit to this city to procure aid for the Corvallis College. The sum of $... is wanted to supply philosophical and chemical apparatus and to build a boarding house for students. He stated that since leaving home they had met with much to encourage them and he felt that they would be successful in their mission. Mr Moreland then proceeded with his readings but we had not time to listen longer. We heard only the pieces mentioned above.

SWIMMING MATCH.—F... PAID.—The swimming match ... to come off at ... yesterday between W R Hill and a man named Ratcliffe did not take place. Hill's opponent weakened and paid the forfeit—ten dollars. Hill declares his readiness to swim a match, any distance to be named for any amount of money, on any possible day, with any man of any country who dares to accept his challenge.

REPLYING.—A. B.—We willingly give Mr. L. Holmes space ... to reply to the charges made against a Federal official ... A Bailey ... Post Office.

EDITOR OREGONIAN: I noticed in ... a ... over the name of A. B. ... against ... Federal official ... The Federal official neither inaugurated nor circulated the petition referred to. JURIES IN CITY CASES.—In the case of the City vs. ... the Recorder yesterday in ruling decided adversely to the application of the defendant for a jury.

HELD: Defendant's application for a jury trial denied for the reason that defendant is accused of an offense not within that class of criminal prosecutions declared by the Constitution of the State that the accused shall have the right to public trial by an impartial jury. Section 51 of the City Charter only prescribes the practice of the Recorder's Court.

Whether this decision be well grounded in law or not it is a point gained in respect of public policy ... this view that it will relieve the city of considerable needless expense and will have the effect of a ... through which parties charged with offenses have been accustomed to escape ... of law and ... A large proportion of juries heretofore called in city cases have outraged the public sense of justice by acquittals of guilty parties.

THE ATKINS CORK LEG FUND.—Mr. Wm. Atkins the person to whom money has been donated for the purpose of buying a cork leg, left for the East last evening by the *John L. Stephens*. The following is a statement of the fund received and the disposition made of it:

Paid for passage to San Francisco to Wm Atkins	10 25

Mr. Wellier passes Atkins to San Francisco for half fare. Mr Mills of Wells, Fargo & Co. will see that his fare from San Francisco to New York be had at the lowest rate and if any balance of the purchase money remain over it will be returned to Atkins.

THROWN FROM A HORSE AND KICKED.—Mr. H. Becharer started from this city yesterday morning to ride on horseback to Vancouver. He arrived all right at Love's place. Mr. Love set him across the slough and returned to this bank. In a short time Mr. Love saw the horse come running back on the other bank of the slough without a rider. He crossed over and went to look for Mr. Becharer whom he found lying in the road unconscious and with a wound on the forehead. He had evidently been thrown off and kicked by the horse. Mr. Love had him taken to a house and sent for a surgeon. Dr. Mack of East Portland went out and dressed the wound and afterwards, Dr. Kohler went out at the solicitation of Mr. Becharer's friends. When Dr. Kohler returned the wounded man was conscious with symptoms favorable to a speedy recovery.

STATE TEACHERS INSTITUTE.—This association will meet at Eugene City on Tuesday the 28th and will continue till Friday evening the 31st. The P. T. Co. have agreed to carry teachers by their boats as far as they may run at half fare. Mr. C. H. Mattoon, one of the Executive Committee informs the public that teams can be procured at Corvallis for $6 per day or if teachers will club together ten in number to one team and do their own driving they can make the round trip from Corvallis to Eugene City and back at an expense of $3 00 each. Expense at Eugene City will be provided by the citizens; arrangements having been made to furnish board and lodging to all teachers in attendance.

U. S. SURVEYING STEAMER.—The U. S. steaming tug *Katie*, Capt. Bebo arrived from San Francisco yesterday morning. She is sent here to be used by a surveying party to survey the ship channel across the Columbia bar and thence up the river to the head of ship navigation. The *Katie* is a tug steamer near the dimensions of the tug *Rabbit* which was here two years ago, was built at Mare Island, California expressly for the coast survey and was launched about two months ago. In the course of a few days she will proceed to Astoria and enter at once into service. She experienced some rough weather on the trip up.

He intends sailing to the northern ...

RETURNED.—The new steamer *Albany* returned yesterday from her first trip up the river. Her owners are well pleased with her and the passengers speak in high terms of her accommodations. She made the round trip without getting aground—a matter that the other boats rarely do at this season of the year. With her wood and stores on board she draws but fourteen inches of water. She made the fastest time ever made between Oregon City and Salem.

INDECENT EXPOSURE.—Three or four ... who are old enough to have a better sense of propriety than they have occasionally exhibited were arrested yesterday morning at the lower end of the city for indecent exposure of their persons while the steamer *Tromp* was passing. It should be a warning to them to make their bathing occasions decently private. The Marshal is determined to break up the ... practice with those of bathing in public places.

INJURED BY AN OX.—The steamer *Ancher* yesterday morning took on board thirty four head of cattle for Montcell. While assisting to drive them aboard Capt. Fisher was kicked in the stomach by an ox and was hurt so badly for the time that he required help to get up to the steamer's cabin. The injury, however is not thought to be serious.

OPPOSITION TO NEW YORK.—On the 5th of August the steamship *Nevada*, J. R. Kelly commander will be dispatched by the North American Steamship Company for Panama to connect at Aspinwall with the *Santiago* for New York. The steamship *Oregonian* in the same line will sail August 20th and the steamship *Nebraska* on the 5th September.

RAILROAD BRIDGES.—We learn that the west side railroad company yesterday let a contract to B. F. Starr & Co. to build some of the trestle bridges on the Portland mountain. Two thirds of the cost of the work is to be paid with lands of the company and the work is to commence immediately.

MCADAMIZING.—Within the last few days, workmen have been engaged in giving a new dressing of broken stone to the McAdamized portion of Front street from Madison down. That part of the street has been for some time much cut to pieces.

MISTAKEN.—The *Oregonian* in speaking of the designs for the Salem Bank building credits them to Mr. Hallock of the Willamette Iron Works. This is a mistake. Mr J ... is the architect and made the designs for everything—iron stone brick and wood.

COMMENCED TO RAISE.—The workmen on Mr. Ladd's banking building at the corner of Stark and First streets commenced yesterday to raise the iron columns. They are fancy and extremely rich in design.

Manufactory Established in June, 1851
STEAM POWER NOS 625 AND 627 FRONT ST
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee neglects nothing to justify the good name acquired by his productions the sale of which daily increases. The acknowledged superiority of his merchandise which commands here and in the markets of the interior a relatively higher price excites the cupidity of some manufacturers and every day he sees increasing the number of those who by counterfeit or imitation of his mark seek to deceive the public palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned and placed on their guard against this practice.

HOSTETTER'S
CELEBRATED STOMACH BITTERS!
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
STOMACH, LIVER AND BOWELS.
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water. Invigorates the organs of digestion and the bowels,
Steadies the Nerves and tends to Prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness whether inherent in the system or
PRODUCED BY SPECIAL CAUSES.
NOTHING THAT IS NOT WHOLESOME GENIAL and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant, but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.
The weak stomach is rapidly invigorated and the appetite restored by this Tonic and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.
Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.
As a Genuine Tonic HOSTETTER'S BITTERS produces effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed it operates to re-enforce and re-establish them.
Last but not least, It is the only safe stimulant being manufactured from sound and innocuous materials and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

If We Knew

If we knew the woe and heartache
Waiting for us down the road,
If our lips could taste the wormwood,
If our backs could feel the load,
Would we waste the day in wishing
For a time that ne'er can be;
Would we wait in such impatience
For our ships to come from sea.

If we knew the baby fingers
Pressed against the window pane
Would be cold and stiff to-morrow—
Never trouble us again—
Would the bright eyes of our darling
Catch the frown upon our brow?
Would the print of rosy fingers
Vex us then as they do now?

Ah! these little ice-cold fingers
How they point our memories back
To the hasty words and actions
Strewn along our backward track!
How these little hands remind us,
As in snowy grace they lie,
Not to scatter thorns—but roses—
For our reaping by and by.

Strange we never prize the music
Till the sweet voiced bird has flown;
Strange that we should slight the violets
Till the lovely flowers are gone;
Strange that summer skies and sunshine
Never seem one half so fair
As when winter's snowy pinions
Shake their white down in the air.

Lips from which the seal of silence
None but God can roll away
Never blossomed in such beauty
As adorns the mouth to-day;
And sweet words that freight our memory
With their beautiful perfume,
Come to us in sweeter accents
Through the portals of the tomb.

Let us gather up the sunbeams,
Lying all around our path;
Let us keep the wheat and roses,
Casting out the thorns and chaff;
Let us find our sweetest comfort
In the blessings of to-day,
With a patient hand removing
All the briars from our way.

Parties and Plunder

[From the New York Tribune of June 30.]

Governor Seymour, in his recent speech in this city, said

"In our State, at the last election we appealed to all classes to help us save New York from misgovernment, and all came up to the rescue, and we made a change of 70,000."

The aggregate Democratic vote in our State was

In 1866—John T. Hoffman .... [illegible]
In 1867—Homer A. Nelson .... [illegible]
Increase .... [illegible]

Such is the precise number that "came up to the rescue" of Gov. Seymour's "friends" in 1867, who were not with them the year before.

These came (as the ex-Governor says), because of the clamor against Republican extravagance, corruption, etc. The people were told that Republican rule was plundering and impoverishing them—that a change of party ascendency would insure economy, pure legislation and a reduction of taxes. They tried it by electing a Democratic Assembly and a closely balanced Senate. And that Assembly, that Legislature, was corrupt and filthy beyond all precedent—nay, beyond all preconception. Never was legislative pollution so brazen, so shameless, as at Albany last winter.

The thieves were not all Democrats, but the few honest legislators were nearly or quite all Republicans. You can count them all on your fingers, and at least three-fourths of them are supporters of Grant and Colfax. One of them was hunted into resignation for exposing a Democratic attempt to buy his vote.

These are facts of the widest notoriety. We claim no immunity for legislators of our own party. Some of these were corrupt, and ought not to be re-elected. We exhort the people to vote against every thief, no matter of what politics. We tell them that they can never purify our legislation by voting for any and every [illegible] who may be set up by "[illegible]," but must "bolt" and [illegible] when corrupt men assume no [illegible] for the people of New York can [illegible] be duped as they were last Fall, [illegible] to vote the Democratic ticket to put down corruption; they did it, and thereby gave a freer rein to corruption than it ever had before. Talk as smoothly as you will, Governor, you cannot so dupe them again!

TOUCHING HIM ON A TENDER CHORD.—The *Nation* relates the following anecdote of a young clergyman who had just buried his wife:

In the early freshness of his grief he was waited upon by one of the deacons, with the announcement that Brother Smith had left his church and gone to the Methodist, "and Brother Smith does say that you, his own minister, have hurt his feelings so that he never can get over it." The tender-hearted [illegible] was touched by this imputation, and eager to atone to the aggrieved sheep for any unintentional wrong he might have done—

"So he took his little crook,
Determined for to find him"

which he did, sulking over some job of his trade of carpentry. After an expenditure of much affectionate entreaty and skilful cross questioning, the minister elicited the following: "Well, the fact is, I knew there wasn't much chance of your wife's getting well, so I went to work two weeks before she died, so as to have it ready, and made just the prettiest coffin for her that was ever turned out in this town. I'd took her measure a hundred times sitting right back of the parson's pew, you know. I didn't say anything about it to you [illegible], 'cause my woman had a notion it would sort o' cut you up. I don't [illegible], but when I heard that you'd telegraphed to Boston for one of them new-fangled [illegible] coffins, I can't say I felt as if I couldn't set under your preaching no longer;" and "set" he didn't.

TELEGRAPHS.—Some interesting facts in the history of telegraphic communication are given by Neumann in a [illegible] report recently published at Vienna. It appears from this report that a line of telegraph was opened between Persia and Russia by the way of Caucasus as early as 1859. Telegraphic communication between Europe and Northern Asia was also first established by the Russian Government, which laid down a line between Moscow and Omsk, in 1862, and extended it to the sea of Japan, by way of Irkutsk and Kiachta in 1864. A Russian telegraphic agency exists at Pekin, through which messages are transmitted from the Atlantic to the Pacific ocean. The line is now carried to Behring's Straits by Okhotsk. The total length of the European telegraphs is 53,340 geographical miles; of those in America, 14,239; of those in Asia, 4,736, of those in Australia, 1,842, of those in Africa, 1,504—exclusive of submarine lines. There are in all 1,200 telegraph stations, and the number employed in them is about 38,000. The total weight of wire is calculated at 1,300,000 cwt., and there are about 7,500,000 telegraph posts, which cost £200,000 a year to keep up. The capital expended in the construction of the various telegraphs is £16,500,000.

LET US HONOR THEM.—For four years the rebel Democrats in front, and cowardly sneaking copperhead Democrats in the rear, tried to destroy our Government; now they seek to get the control by electing Seymour. Are the American people ready to bear their necks and wear this nigger driving collar? The traitor crew are none the less rebels now than they were four years ago. Here in Sacramento and in California the same crowd of small bar politicians, ex-overseers and Mississippi gamblers lead the noble crowd of copperheads. We have also some of the 'noble' men who fought on the Democratic side in the late war. They assisted in nursing our brave "boys in blue" at Belle Isle, Andersonville, Libby Prison and other delightful Democratic retreats during the war. Noble Democrats—every devil of them.—*Sac. Record.*

"We hall ave our hups and downs," an Englishman says at our elbow. The Democrats wanted the Union broke up from 1861 to 1865, inclusive. Reorganizing the Southern States in the hands of the defeated rebels during the latter year, they have been clamorous for their admission into the Union ever since. Congress having at last against every species of difficulty and opposition, reorganized them in the hands of Union men, they are being admitted into the Union. The Democrats protest. But it will be unavailing.

TAKE **AYER'S PILLS** for all the purposes of a purgative, for Constipation, Indigestion, Headache and Liver Complaint. By universal accord they are the best of all purgatives for family use.

SOOTHING AND BRACING.—There is no preparation in existence which has such a soothing effect in cases of nervous excitement as

DR. HOSTETTER'S STOMACH BITTERS.

Although the fame of this renowned invigorant rests mainly on its astonishing cures of Dyspepsia, Liver Complaint and intestinal disorders, it is equally efficacious in nervous complaints. Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and lightens the depressed mental powers as well as strengthens the body, and its use is never followed by any unpleasant reaction. Sold by all Druggists and dealers everywhere.

HIRAM SMITH'S
Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

B. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, G. B. WARD,
Mrs MONTGOMERY, JOHN M. HOLLOWAY,
W. D. PORTER, ROBT RAMSEY,
And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

Medical.

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES.
Dr. Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of years standing and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering pain almost their existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation they can but suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible health destroying maladies; see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to beware of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating the disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders, who with bogus sworn to certificates dupe the unwary. Some of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

DR. J. C. YOUNG,
Medical and Surgical
INSTITUTE.

⁂ *CONSULTATION, IN ALL CASES, FREE.*

⁂ *CURES GUARANTEED, OR NO PAY REQUIRED.*

⁂ *IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ!

I am aware that by dwelling upon so unlovely a subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant may express [illegible]; but the object is to point out to those who [illegible] and decay, the true cause of their [illegible] great an incentive to be [illegible] into [illegible] tended the terrible disease of Seminal Weakness [illegible] one but the practical specialist who devotes his time [illegible] the most [illegible] by noting the following symptoms; Weakness of the back and limbs, [illegible] loss of memory, power, nervous [illegible] cold feet or hands, or [illegible] by hot heads, [illegible] of countenance, [illegible] flushings of the face, [illegible] sion to society; confusion of the mind, loss of [illegible] nightly emissions; colorless slight discharges upon the least excitement [illegible] regular appetite, [illegible], etc.

YOUNG MAN, if you experience any of these symptoms [illegible] present is the golden moment in which you [illegible] health and [illegible]. You may feel strong now, but if you have ever been [illegible] of the vice of self-[illegible], you have the seeds of a [illegible] and their [illegible] or later, dash the fair [illegible] of your [illegible] ground, [illegible] that declares [illegible] once, [illegible] not danger; for while the [illegible] tion of the Heart, [illegible] tions, he sinks into a [illegible] to the list of the [illegible]

See in the best form and [illegible] victim of the [illegible] in the hollow [illegible]

[illegible] is one of the [illegible] first it is easily shaken off, but it grows eventually [illegible] great distinctness [illegible] his regular [illegible] mind becomes apprehensive, and restless nights [illegible] days of [illegible].

It is the nature of the complaint to [illegible] changes that leave the poor victim but little hope of recovery. In a single [illegible] it may [illegible] hope and blast your [illegible] expectations.

Marriage is [illegible] by a natural impulse and [illegible] lief. This is an error of the first magnitude, [illegible] system unprepared for the exigencies of the [illegible] denly fails and he finds himself in a deplorable [illegible] from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, [illegible], and degenerate. This is [illegible] ble to both sexes, whether married or single, and to all times of life.

Do not delay if you feel any of the symptoms of this terrible complaint, or if your acts have been such as to lead to them, but by instant application secure to [illegible] only hope of health and happiness. The Doctor [illegible] mercury or other deleterious drugs—cures, where [illegible] time, always guaranteed, and full and perfect [illegible] stored.

The afflicted are assured of every confidence.

PERSONS AFFLICTED WITH VENEREAL.

During the seventeen years since the establishment of the Institute, the number of cases of Venereal that have been treated, show a record unequalled by any in the world, and the success that has invariably marked the course of treatment,

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is a well established medical principle that those poisonous drugs, by entering the blood, ruin the constitution for life.

The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or obliging him to neglect his business, whether in-doors or without. The diet need not be changed. Cures always guaranteed, or no pay required.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, Where is there a physician competent to administer relief and whose respectable standing in society will recommend him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathise with and befriend them in trouble, and in whose secresy the utmost confidence can be placed. Consultation by letter or otherwise, free. Cures guaranteed in all weakness and trouble incidental to the sex. Private apartments are provided, when desired, where can be had all the advantages of unremitted attention of the Doctor and the most skillful and faithful nurses.

TO CORRESPONDENTS.—Persons either male or female, residing in the interior, are often deterred from consulting the Doctor because they cannot spare the time, nor incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of the complaint, as the communication will be seen by no one except the Doctor, and will be treated with the utmost confidence, and either be returned or destroyed.
